Heavy Duty Blades

3840

Features and Benefits

- The Heavy Duty blades have been manufactured in a precise process that gives a sharper cutting edge and a faster cutting blade
- Designed for extreme metal cutting.
- A thicker blade and wider body makes the blade more rigid and has a higher resistance to fracturing and bending, allowing straighter cuts.

Heavy Duty Blades

Fire & Rescue Blades

3840

Features and Benefits

- The Fire & Rescue blades are manufactured in a precise process that gives a sharper cutting edge and a faster cutting blade.
- The more rigid and thicker body resists fracturing and bending for maximum durability
- Bimetal blades are shatter resistant and flexible for the perfect combination of strength and flexibility.
- Blade twisting is reduced by a 1" tall blade body for a straighter more accurate cut
- Perfect for fire department extractions.
